

Creating Google Cloud App for **Google Sheets** integration:

## Step 1: Go to Google Cloud Console

Visit: <https://console.cloud.google.com>

Make sure you are logged in with your Google Workspace account.

## Step 2: Create a New Project

1. Click on the **project dropdown** on the top bar.
2. Click **"New Project"**.
3. Enter:
  - **Project name** (e.g., My Google API App)
  - **Location/Organization** (optional).
4. Click **"Create"**.

## Step 3: Enable APIs (Google Sheets & Drive)

1. After project creation, ensure it's **selected**.
2. In the left menu, go to **APIs & Services > Library**.
3. Search for:
  - **Google Sheets API** → Click → Click **Enable**
  - **Google Drive API** → Click → Click **Enable**

## Step 4: Configure OAuth Consent Screen

1. Go to **APIs & Services > OAuth consent screen**.
2. Click **Create**.
3. Fill the following fields:
  - **App Name**
  - **User support email**
  - **Authorized domains**
4. Choose **Audience**:
  - Internal
5. **Developer contact information**

6. Finish
7. Click **Create**.

## Step 5: Authorized domains

1. Go to **APIs & Services > OAuth Consent Screen**
2. Go to **Branding**
3. Under **Authorized domains** add your domain name. Ex: google.com
4. Click on Save.

## Step 6: Create OAuth 2.0 Credentials

1. Go to **APIs & Services > Credentials**.
2. Click **+ CREATE CREDENTIALS > OAuth client ID**.
3. Choose **Application Type**:
  - **Web Application**
4. Fill in:
  - **Authorized redirect URIs**:
    - Example for local: Example:
    - <https://yourdomain.com/google-sheet/callback>
5. Click **Create**.
6. Download the **credentials.json** file.
